General

Is my data safe and how is it stored?

iManageRent is secured by the highest level of data encryption offered by DigiCert, as exemplified by the DigiCert seal present in the footer of our website. For your storage convenience, we use two server companies, one in Seattle, WA and one in London, England. Servers mirror each other. In case one location goes down, the other will pick up in less than a second. Your financial information is only stored at the financial institutions handling payments.
