

Estimate Market Rent

How can I stop or cancel my listing?

If you have filled your vacancy or, for any other reason, would like to stop your listing, it can be done in one of two ways:

1) "Stop Listing & Archive," which is our recommended way. This option will save all your listing information so you can relist it at a future date.

Or...

2) The "Delete" option, if you no longer need your listing's data and want to delete it completely from the portal. Please keep in mind that you'll need to start a fresh listing in the future by reinstating all the data since the deleted information cannot be restored if you choose this option.

Also keep in mind that it can take up to 24 hours for the listing to be removed from our partner websites.

Please see the attached screen shot for a visual on how to accomplish this task.

The screenshot shows the iManageRent dashboard. The top navigation bar includes links for Properties, Estimate Rent, Listings (1), Inquiries, Applicant Screening, Expenses (BETA), Reports, Messages, and Maintenance. The main content area displays a listing for '100 Crooked Run Plaza, 10 Front Royal, VA 22630' with a status of 'Active Listing' (expires on 11/16/2022). A red box highlights the 'Stop Listing & Archive' button, and a yellow arrow points to it. A text box on the right states: 'Please click on "Stop Listing & Archive" if you would like to stop your listing. This option will save all your listing information so you can relist it at a future date.'
