

My company website

How do I benefit from website integration?

- 1) You can manage (post/edit/delete) your vacancies onto your website without the help of a computer programmer and at the same time promote your listing on Apartments.com, Zillow, LiveLovely etc....
- 2) You can offer tenant screening packages including credit report and background checks to your prospective tenants from your vacancies.
- 3) You can collect security deposit and rent and have funds deposited directly into your designated bank account from your website.
